

# Connecting CropVoice to John Deere Operations Center™ (For Farmers)

Connecting CropVoice to your John Deere Operations Center account takes less than 2 minutes. Once connected, you'll receive CropVoice Disease Alerts directly in the Operations Center as notifications, and a Work Plan will be automatically created for each impacted field when a Disease Alert is triggered.

---

## Before You Start

You'll need:

- Your John Deere Operations Center login credentials
- Access to the email address associated with your CropVoice enrollment

If you're unsure which email is on file, contact your Customer Success Manager at **(217) 264-6964**.

---

## Steps to Connect

### 1. Request your connection link

Go to <https://cropvoice.innerplant.com/> and click the "**Connect with Ops Center**" on the left-hand side of the screen. You must be enrolled in CropVoice to receive connection instructions. Contact your retailer if you have not yet enrolled in CropVoice.

Enter the email address associated with your CropVoice account and click the button to send instructions.

### 2. Check your email

Within a few minutes, you'll receive an email with a personalized link to complete the connection. Click "**Connect to John Deere**" in that email. If you did not receive the email, check your spam folder.

### 3. Log in and allow access

You'll be taken to the John Deere Operations Center sign-in page. Log in with your Operations Center credentials.

You'll see a screen that says "**CropVoice wants to access**" with a list of checkboxes. These permissions allow CropVoice to send you Disease Alert notifications and create a Work Plan on your behalf (the Work Plan will NOT automatically send). InnerPlant does not view or edit any other parts of your account. Click "**Allow Access.**"

### 4. Select your organization and save

Select the organization you want to connect to CropVoice, then click "**Save.**"

This step is required — the connection will not complete without clicking Save.

### 5. Connection successful

You'll be directed to the Connections page in your John Deere Operations Center account, and CropVoice will be listed as one of your Organization Connections:

The screenshot displays the John Deere Operations Center interface. At the top, the navigation bar includes the John Deere logo, 'JOHN DEERE | Operations Center', and a user profile 'innerplant-dev'. Below the navigation bar are several filter buttons: 'Map', 'Setup', 'Plan', 'Analyze', 'Service', and 'More'. A 'New' button is also visible. The main content area is titled 'Connections' and features a 'Learn About Connections' button. Under the 'Organization Connections' section, the 'CropVoice' connection is shown as connected, with a 'Learn More' and 'Manage' button. Under the 'Available Connections' section, three options are listed: 'Abaco Group ABACO Farmer', 'ABAX BV ABAX Smart Connect', and 'AcreConnect™'.

## What Happens Next

CropVoice, powered by InnerSoy, will monitor for disease every day throughout the season. Once the InnerSoy plants indicate disease in your area, a Disease Alert will be issued for your enrolled fields. *Enrolled fields must have a soybean planting event and be within the CropVoice network area to receive a Disease Alert.*

When a Disease Alert is issued for one of your enrolled fields, you'll receive a notification in the Operations Center (accessible via web browser and the mobile app), and a Work Plan will be created for that field with your crop and preferred product mix pre-populated.

For more information, visit [innerplant.com/cropvoice](https://innerplant.com/cropvoice) or reach out to your Customer Success Manager at **(217) 264-6964**.

---

## Troubleshooting

**I didn't receive the email.** Check your spam folder. If it's not there, contact your Customer Success Manager at (217) 264-6964 to troubleshoot.

**I got an error after clicking "Allow Access."** Make sure you clicked "Save" after selecting your organization. If the issue persists, call (217) 264-6964.

For any questions/troubleshooting, please contact your Customer Success Manager at (217) 264-6964 or [support@innerplant.com](mailto:support@innerplant.com).
